

SANDY MOISAN

From France to Sweden

Project: **Composite Materials**

Research topic: **Chemistry**

Swedish Institution: **RISE Sicomp, KTH, IVL**

French Institution: **IRT Jules Verne**

Dates of mobility: **25/10/2020 to 30/10/2020**

Program: **SFVE-A (ex TOR)**

PRESENTATION

After a PhD diploma in 2006 in physical chemistry of condensed matter at the [University of Bordeaux](#), [Sandy Moisan](#) worked for six years in the field of nanoparticles in R&D department of several entities. She joined [IRT Jules Verne](#) for developing composite recycling technology and thus enlarged her activities in sustainability aspects for composite manufacturing processes.

ACTIVITIES IN SWEDEN

During her stay in Sweden, Sandy Moisan visited [RISE Sicomp](#) in Öjebyn, [KTH](#) and the [Swedish Environmental Research Institute \(IVL\)](#) in Stockholm.
