

ARIANE LAPLANTE-LÉVESQUE

From Sweden to France

Project: **Clinical audiology**

Research topic: **Medecine & Health**

Swedish Institution: **Linköping University**

French Institution: **University Claude Bernard Lyon I**

Dates of mobility: **07/07/2014 to 11/07/2014**

Program: **SFVE-A (ex-FRÖ)**

PRESENTATION

[Ariane Laplante-Lévesque](#) is Adjunct Associate Professor at the Department of Behavioural Sciences and Learning ([IBL](#)) and the Disability Research Division ([FUSA](#)) of [Linköping University](#). She is also Technical Advisor in eye and ear care at the World Health Organization ([WHO](#)). She defended her PhD at the [University of Queensland](#) in 2010. She is specialized in clinical audiology aimed at improving the conditions of hearing impairment and facilitators to hearing help-seeking and rehabilitation.

ACTIVITIES IN FRANCE

Laplante-Lévesque travelled to France to meet with [Kelly Tremblay](#) ([Département d'Études Cognitives](#) at the [École Normale Supérieure \(ENS\)](#) in Paris & [University of Washington](#)), [Fanny Meunier](#) ([Cognitive Neuroscience Centre CNC](#) at the [University Claude Bernard Lyon I](#)) and [Barbara Tillmann](#), also from the CNC. Tremblay was unfortunately not available during the visit but Laplante-Lévesque met with Meunier and Tillmann, and also discussed extensively with [Michel Hoen](#) from the CNC and [Séverine Leusie](#) from the research group "[Recherche Alzheimer Presbyacousie Santé](#)".

She also participated in a summer school event organized by the [Centre Lyonnais d'Acoustique](#) and several collaborations were envisaged.
